Mr. Paine aspiring to be a Radical leader in Congress, it is said, announced recently, with out mineing words, that one Radical plan "is to transfer the power from the representatives of the people in the State Legislatures to the representatives of the people in Congress.' The Fredericksburg Herald in quoting this, says that "there was a period in our history when such language would have been regarded as treason to the Constitution and to the States." Yes, alas! there was a time. Now, it is read and heard, without much emotion. But we do not despair. If liberty is to be preserved, at all, in this country, this and all such denounced.

The Washington Star, in discussing the bill recently introduced in Congress, providing for a Territorial Government for the District of Columbia, says: "Every member we have conversed with on the subject concedes the utter inability of Congress to give proper at tention to District matters, and their disposi tion to remit their consideration to any com petent authority in the District."

The Washington News has some purgent remarks, and rather "cathartic observations" on the late Congressional Temperance Society meeting, and the specches of those prominent on that occasion. It, also, takes occasion. very properly, to advise the gentlemen engaged that there ought to be temperance in debate and action in the halls of legislation, as well as in drinking whiskey or wine, as the case may be.

It is said that a large immigration of indigent Jews may shortly be looked for. It is known that several hundred families are to be sent to New York from Western Russia, where toleration is no longer to be enjoyed. It is also stated that the sub committee on the Russo Prussian frontiers will soon organize a general fund for the exportation of Jews to this country.

The recommendation of the Secretary of War to purchase some of the lands around Fortress Monroe for the use of the U. S. Artillery school, at the prices named, startles the public. It is said the figures indicate that these lands are equal to diamond mines; 9,000 for one acre is a tolerably big ask; and \$7,000 for another acre is not far behind.

M. Schele de Vere, one of the Professors of the University of Virginia, a son-in-law of Judge Alexander Rives, has issued a book under the title of "Wonders of the Deep," whose popularity is attested by the fact that it has publishers in various parts of the country. The book is in every sense a comprehensive research of the sea and its marvels.

We are rejoiced to hear that there is seri ous opposition in Congress to the acquisition and annexation of San Domingo. We suppose however, the opposition will be of no avail .-We are to centralize and expand-and some now living will see the unhappy result!

We cannot tell what a day may bring forthor what the telegraph may bring us as to the result of to day's proceedings in the Senate relative to the admission of Virginia, but the impression in Washington yesterday, was, that the House bill will pass in the Senate.

The new arrangement of Postmaster General Creswell, in reference to the transportation of the foreign mails, appears to work well, so far, not only as to the reduced rates of postage, but also as to the rapid passages.

The last news from Mexico is, that "the revolution in the state of San Luis Potosi is in creasing." We should like to know when it has been, or is, when some revolution or other in Mexico is not increasing.

Speaking of the admission of Virginia, the Richmond Whig says: - "Viccinia being ad mitted upon liberal terms, we shall not affect an indifference. We will not feel, or give way to, clamorous joy."

Dr. Bagby, in an acticle in Putnam's Maga zine, contends that ail men who have the aptitude for acquiring and accumulating money,

have "large, longish, fleshy ears." Secretary Seward and "his party" have ar-

rived at Havana, on their way home.

The "telegraph strike" is at an end - having been an entire failure.

The Richmond State Journal asserts that Gov. Walker has utilized the personal influence which he possesses with leading Republicans in Washington, by declaring himself, openly and undisguisedly, to be a Republican." But, we do not understand he has said that he is an ultra, proscriptive, Radical Republican-

or that he approves of all the doings, designs and purposes of the leaders of the party that now calls itself Republican. Not that we do

not believe, if things continue as they now are, in a short time there will be but two parties to make choice of the Radical and the Anti-Radical or Conservative parties.

Mr. Webster, son-in-law of Mr. Secretary Fish, was the attorney employed by the Spanish Government to look after its interests in this country. It is alieged that he was employed in this capacity, and received large fees, because he was the son-in law of Mr. Fish, and could through him shape the policy of our Souri little to some land was tried before him. NEWS OF THE DAY.

'To show the very age and body of the Times.'

A letter from Orlean, New York, dated on the 14th inst., says :- "No small excitement has been caused in this town and in Alleghany, of a clergyman, which have broken up a wedding that had been publicly announced to come lover can faithfully fulfill."

Com. Delano yesterday, made the decision that the income tax assessed upon Government employees, and Army and Navy officers, and other corporations, the distributed profits made by them, as well as interest amounts used for the construction of buildings, cars, etc., does not expire with the year 1870.

The towboat Star of Pittsburg, with 140,000 bushels of coal, collided with a pier of the new railroad bridge at Bellaire, Ohio, Sunday evening, and sunk, with seven barges. As she went down her boilers exploded, setting the boat on fire. One woman was killed.

A dispatch from Cheyenne, Wyoming Territory, announces that the building there used by the Collector and Assessor of Internal Revenue had been destroyed by fire, but that the books, papers and money belonging to the Government were saved.

A fleet of thirteen Spanish gunboats, from New York via Hampton Roads, under convoy doctrines and schemes, will yet be rejected and of the steamer Isabel La Catolica, have put into Charleston for coal and supplies. They expect to remain about two days, when they will leave for Cuba.

A serious riot occurred in the town of Yonkers, New York, on Sunday, during which two policemen were brutally beaten. Eleven rioters were arrested and held for trial.

In the Circuit Court of Rochester, N. Y. vesterday, the case of John Seller against Peter C. Ward was tried, (crim con) and resulted in a verdict for the plaintiff for \$3,000.

Money was easier at New York yesterday, and the demands of the brokers exceeded by the supply. Gold was firm at 212.

We find the following in the published proceedings in the Senate, yesterday :-- "Mr. Edmunds moved as an amendment to the House bill his amendment to the Senate bill, requiring the members of the Virginia Legislature and the State officers to take the oath prescrib- and sentenced to be confined in the penitentiary ed by the third section of the Fourteenth Amendment.

Mr. Boreman argued that the safety of the whole country demanded that conditions of admission should be imposed upon Virginia.

Mr. Fowler read a written constitutional speech upon reconstruction. Mr. Edmunds read from a letter which he said he had received to-day, advising him to withdraw his amendment and let the old State in; that no gentleman in Virginia could take that oath; that Gen. Stoneman and General Schofield will say that the men who fought the battles were the best men; that the carpet Gen. Lee is president, has been a recipient of battles were the best men; that the carpet-

Mr. Edmunds also read a newspaper extract of a speech in which the following occurs: 'With a Legislature elected in opposition to the Radicals, I shall never carry out the county

Mr. Sumner-Who says that? Mr. Edmunds-Mr. Walker, the Governor

of Virginia. Mr. Sumner-Traitor! Mr. Thayer said Nebraska had been admit ted on conditions, and she was not degraded by them; and yet Virginia, which had for so long tried to destroy the Union, was to be let

in with no conditions.' We hope Gov. Walker will bear in mind hereafter, what he may expect from Sumner and his clan.

THE WEATHER .- Dispatches from the West show a condition of weather prevailing there which even excels in its phenomena and rapid changes the remarkable state in this locality. On Sunday night St. Louis was visited by a tremendous storm of rain, wind, lightning and thunder, the severity of which caused a panie in two thea tres of the city. A number of persons were injured in the crush, but none are reported killed. The storm extended throughout that see tion of country, and during its continuance the weather was quite warm, changing afterward to of his intentions. Mr. Arensberg, who i intense cold. The Ohio river is rising rapidly, known among his triends as "The Velocipede, and there are fears of an inundation along its banks. At Cave City, Ky., eight persons were killed by the tornado. A dispatch from Cineinnati, dated yesterday says: - "An unusually heavy storm of rain and hail, accompanied with wind, thunder and lightning prevailed here this morning. Considerable damage has been sustained in the city from overflowed cellars. The Little Miami is within two feet of its highest limit. The wind damaged churches in the Hamilton and Dayton road are washed away, but trains have arrived. Traics are deayed on the Marietta and Cincinnati and Little Miami roads. The latter road is under water says: -"During a thunder storm last night the mercury stood at 42°; to day it is down to zero. A dispatch from Pittsburg says: -"A heavy rainsform, with thunder and lightning, visited this city at noon yesterday.'

GOV. WALKER AND MR. BINGHAM. - In his dispatches of Sunday, the Washington correspondent of the New York Times says that, while the votes upon the question of the admission of Virginia were being counted on Friday last, Governor Walker, who had been and every penny counts, they appear large anxiously awaiting the verdict in an ante-room, approached Mr. Bingham and said: "Sir, as the Governor of Virginia, I heartily thank you for your course in this matter. Virginia, I am sure, sir, will never prove recreant or act unworthy the confidence you have placed in are seitating the old question of "Goose Creek her." Mr. Bingham replied: "I trust you navigation." They are said to be seriously are cured, sir. I have never met you before, but am pleased to meet you now. I have only performed what I have considered to be my duty, but am gratified if I have met your approbation. - Wash. Chronicle.

LAND BUYERS. - Several gentlemen from New York and Maryland, have visited Brentsville the past week, with a view of purchasing land in this county.

They have been shown several tracts by the Republican. agents here, among which are some valuable timbered lands in this locality. Immense bodies of splendid timber are in the hands of Western New York, has just returned home. the agents at this place, and in view of the projected Potomac railroad which will no doubt, be built in a short time, great inducements are offered to capitalists .- Prince William

JUDGE GRIER .-- A characteristic anecdote is told of Judge Grier, who lately resigned his seat on the Supreme bench. When he was York; and held his position years ago, and court. It may as well be understood that in "he had any connexion with this State it takes thirteen men to steal a man's been closed in conformity to an act of the farm."

Foreign News.

Paris is tranquil, though there is considerable excitement and anxiety musilessed in the

matter of M. Rochefort. The Marseilles publishes the following dis patch from Madrid: A public meeting of twen ty thousand Republicans in Madrid, by unani-Pa., by developments regarding the conduct mous vote send congratulations to the Republicans of Paris and to deputy Rochefort, the devoted champion of Democracy. In the Corps off in the latter town on the evening of the Legislatif yesterday the debate on the arraign-12th, at the M. E. Church, and implicate the ment of Rochefort was opened. The chamber preacher in making more vows than the chutch was crowded with spectators, and all the Dep rules require, and more promises than any uties were present. Rochefort occupied his usual seat, and all the members of the Cabinet were present on the Ministerial Bench. Esincelin opened the discussion with a proposition made by the party of the left centre. He said that they felt confident of the strength of the upon the dividends of banks, railroads and Ministry, and would advise that the prosecution against the offending Deputy be abandoned; Ollivier replied that the Government could not accept this proposal. He demanded the vote of the Chamber on the question at issue, otherwise the Ministers could not continue in office. This declaration was received with applause from all parts of the Hail. Rochefort made a violent speech. He declared the Ministry were determined to get rid of him as a Deputy, not being able themselves to destroy him. Rochefort was frequently interrupted by protestations from the members.

The chamber decided to grant the demand of the government for the arraignment of Rochfort by an overwhelming majority. The vote stood 226 for and 34 against the prosecution. A crowd collected around the Hall of the Corp Legislatiff. A large police force was on

Sun of Saturday says: The artists of the "art preservative of all arts," are in a flutter over the prospects of a match between New York and Cincinnati compositors. For some years Mr. George A. Barber, of Cincinnati, has had a standing challenge to set type with any fellow enateman for \$1,000, "to work five or eight hours a day on solid straight matter, the type not to be larger than brevier nor smaller than agate. Yesterday Mr. Geo. Arensberg, employed in the Times office, called at the Clipper office with a few friends, and left a counter challenge, at the same time depositing \$100 as an earnest accepts Barber's challenge, the only change in the terms being that he wants to work ten hours only. He offers Burber \$100 to come to New York, or will take the sum same and go to Circinnati. Barber is said to have set 17,800 solid minion in ten hours.

It is proposed to effect some saving on the expense of issuing certain U.S. legal tender Dayton and Mianusburg. Embankments on bills and tractional note currency. The saving will be about \$30,000 per anoma, and it the same reform should be earried out in regard to the lower denominations of legal tenders and inseveral places .- A dispatch from Chicago to the whole issue of fractional currency, the saving would be nearly \$450,000 per annum. This is sneered at by some of the expanded and expansive swells in New York, as a very trifling piece of economy. To this it is answered that to the nabobs of the country, who fatten on the necessities of the poor, and success fully dodge the tax gatherer, such little savings may seem to be a very contemptible trifle, but to the laboring ciasess, with whom every dollar enough to be well worth looking after.

The Subject of Immigration.

LEMINGTON, VA., 30th Dec., 1869. My Dear Sir: The question of supplying laher to the South is one of vital importance, in which all classes are concerned, and particuany the agriculturist, inasmuch as regular and one ant work is more necessary to his prosperity than in most of the other industrial pursuits. I believe this em only be secured by the introduction of a respectable class of laborers from Europe, for although temporary benefit might be derived from importation of the Chine-e and Japanese, it would result, I lear, in even tual injury to the country and her institutions We not only want reliable laborers, but good citizens, whese interests and feelings would be in unison with our own.

State immigration societies, composed of men prompted by the patriotic motive of benefitting the country, would accomplish this object better than by any other mode. By introducing worthy immigrants, providing for their comfort and security on arrival, and assisting them when necessary, to their new homes, ; sufficient supply of honest, steady, willing men would soon be secured.

I believe experience has proved that the practice of employing entire families produces more contentment and permanency among them, and where a number are collected into a community upon neighboring farms they are

better satisfied and gave greater satisfiction. I am glad to find that this important subject claiming your attention, and I hope that the Virginia Immigration Society may be able to adopt a plan for procuring for the State and such others as may co-operate with her, a regu lar supply of hardy, healthy immigrants,

Your plan of providing a depot within our borders where they can be received on landing upon our shores, and where their necessary wants can be supplied, is eminently wise, and in my or inion, necessary; and I should rejoice to see a plan in successful operation established to develop the wealth and to promote the pro-

perity of the South. I have been and still am an advocate of European immigration, but do not see in what other way I can aid it.

With much regard, Your obedient servant, Colonel THOMAS H. ELLIS, President of the Virginia Immigration Society, Richmond, Va.

At an early hour the guest: began to arrive, and were ushered into the three space as rooms. thrown open for the occasion, where they were warmly velcomed by Mrs. E., Mr. E. and his fair bride. The gathering was characterized by neighborly Virginia good feeling. As time waned, the rooms gradually filled, and after flow of conversation sundry games were intrduced. It is needless to say they were enjoyed. The musicians leaving made their appearance the dancing commenced. The first set was gracefully led of by Mr. C. A., of Abayandria,

The clite of West End and the surrounding country was present.— Among the guests we noticed was Judge L., commonly designated as The Line Star of Virginia. This goatleman made himself par ticularly agreeable, but retired at an early hour. Our worthy friend Mr. T. F.
